

## WALL INSTALLATION

- Use the "Screws and plugs supplied" (Fig. 2) and proceed as follows (Fig. 4):
1. Fix the "Base" to the wall using the "C" screws and plugs.
  2. Make the electrical connection (Fig. 1).
  3. Fix the "Frontal" to the "Base" using the screws type "A".
  4. Insert 2 AAA alkaline batteries (1,5 Volt) respecting the indicated polarity.
  5. Reposition the "Cover".

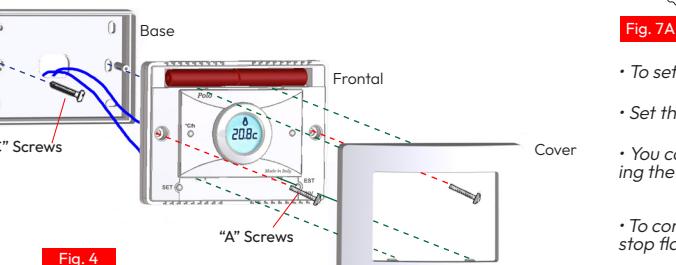

Fig. 4

## POWER SUPPLY

Polo is supplied by two ordinary AAA alkaline 1,5 Volt batteries which can guarantee at least 2 year operation (in STAND-BY mode).

To place the batteries, remove up the "Cover" and place the batteries please pay attention to the correct polarity of the batteries (Fig. 5).

Fig. 5

## POWER ON/RESET

When the batteries are inserted and the RESET function is started, the thermostat carries out a control cycle by turning on all the segments of the display and activating the load for a few seconds (Fig. 6A).

Next the Polo thermostat it goes into the STAND-BY ON phase (Fig. 6B).

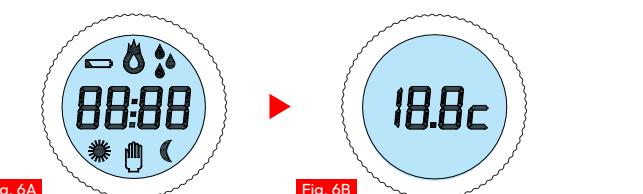

Fig. 6A

Fig. 6B

The RESET function is activated by pressing the "Set", "°C/h" and "ON/OFF (P)" buttons simultaneously for approximately two seconds.

The RESET function completely erases the memory.

## STAND-BY MODE

In STAND-BY mode, the Polo thermostat's backlighting is off. The display shows the current temperature or time. To view the temperature or time, press the "°C/h" button.

The following symbols may appear on the display:

The presence of the flame indicates that the system is in operation.

The presence of the Battery symbol indicates that the batteries are low.

## SETTING THE TIME

When the Polo thermostat is in STAND-BY, press and hold the "Set" button until FLASHES THE MINUTES (Fig. 7A).

• The "ON/OFF" button (P) increases the MINUTES, while the "°C/h" button decreases them.

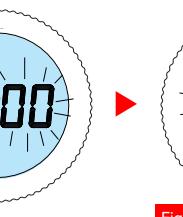

Fig. 7A

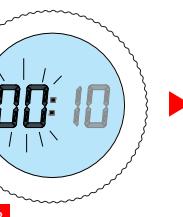

Fig. 7B

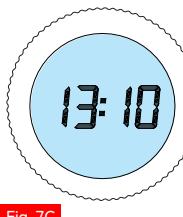

Fig. 7C

## ON/OFF OPERATION

Press the "P" button until the word OFF appears on the display. This will keep the Polo thermostat in anti-freeze mode (5,0°C), ignoring any settings. The word OFF (Fig. 10A) will appear on the display alternating with the time (Fig. 10B) or the detected temperature (Fig. 10C). You can choose whether to display the temperature or the time by pressing the "°C/h" button. The other buttons are disabled.

The other buttons are disabled.

## INSTALLAZIONE A PARETE

- Utilizzare le viti e tasselli in dotazione (Fig. 2) e procedere come segue (Fig. 4):  
 1 • Fissare la "Base" alla parete utilizzando viti e tasselli tipo "B".  
 2 • Effettuare il collegamento elettrico (Fig. 1).  
 3 • Fissare il "Frontale" alla "Base" utilizzando le viti tipo "A".  
 4 • Inserire 2 batterie Alcaline AAA (ministilo) da 1,5 Volt nell'apposito vano.  
 5 • Montare l' "Antina" sul "Frontale".

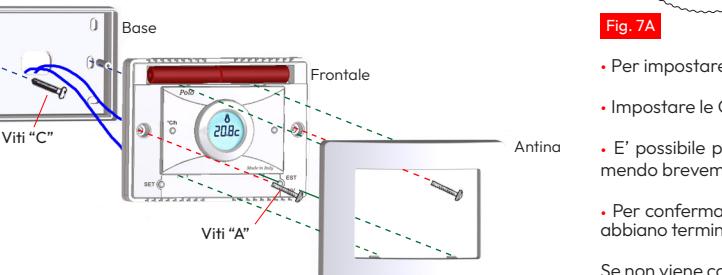

Fig. 4

## ALIMENTAZIONE

Il termostato Polo va alimentato con due comuni batterie Alcaline AAA (ministilo) da 1,5V che ne garantiscono il funzionamento per almeno 2 anni (in funzionamento STAND-BY). Le batterie vanno inserite nell'apposito vano situato sotto l'ANTINA seguendo la polarità indicata sulla plastica (Fig. 5).

Fig. 5

## ACCENSIONE / RESET

All'inserimento delle batterie e all'avvio della funzione RESET il termostato Polo effettua un ciclo di controllo accendendo tutti i segmenti del display e attivando il carico per pochi secondi (Fig. 6A). Successivamente il termostato Polo si pone nella fase di STAND-BY ON (Fig. 6B).

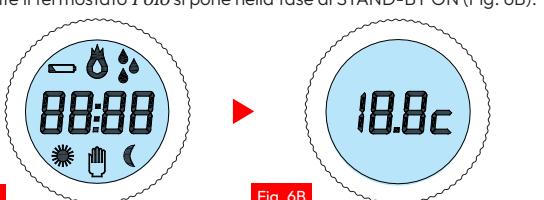

Fig. 6A

Fig. 6B

La funzione di RESET si attiva premendo contemporaneamente per circa due secondi i pulsanti "Set", "°C/h" e "ON/OFF" ( ).

La funzione di RESET cancella completamente la memoria.

## MODALITÀ STAND-BY

In modalità STAND-BY il termostato Polo si presenta con la retroilluminazione spenta. Sul display è visualizzata la temperatura rilevata e l'orario.

Per visualizzare la temperatura oppure l'orario premere il pulsante "°C/h".

Sul display potrebbero essere presenti i seguenti simboli:

La presenza della Fiamma indica che l'impianto è in funzione.

La presenza del simbolo Batteria indica che le batterie sono scarche.

## IMPOSTAZIONE DELL'ORA

Quando il termostato Polo è in STAND-BY, tenere premuto il pulsante "Set" fino al LAMPEGGIO dei MINUTI (Fig. 7A).

• Il pulsante "ON/OFF" ( ) incrementa i MINUTI, mentre il pulsante "°C/h" li decrementa.
